ABOUT US

QUALITY WORKWEAR. BUILT ON TRUST.

We are a trusted manufacturer and exporter of high-quality workwear, safety wear, and apparel—delivering durable, comfortable, and innovative solutions for professionals who work hard every day.

From leather to finishing, every product is carefully manufactured in-house across cutting, stitch, and durability, with a skilled team, modern infrastructure, and a passion for perfection, we maintain a high standard that ensures satisfied clients and on-time global delivery.

QUALITY FIRST

Premium fabrics and high-quality workmanship ensure long-lasting durability and performance.

EXPERT CRAFTSMANSHIP

Skilled team and advanced machinery ensure precision stitching and consistent quality.

GLOBAL STANDARDS

We follow international quality standards to fulfill compliance requirements for our raw clients worldwide.

CUSTOMER FOCUSED

We understand our clients' needs and deliver the right solutions on time, every time.

OUR VISION

To deliver durable, high-quality workwear through innovation, consistency, and competitive value for global success.

OUR AIM

To use the best possible resources to provide competitive and attractive products and exceptional service that help our clients grow in global markets.

BUILT WITH PASSION. DRIVEN BY EXCELLENCE.

Our modern manufacturing facility is equipped with advanced machinery and technology to ensure efficient production and consistent quality at every stage.

WHY CHOOSE US?

PREMIUM FABRICS

Carefully selected fabrics for durability, comfort, and performance.

ADVANCED PRODUCTION

Modern machinery and skilled craftsmanship for precision and efficiency.

QUALITY CONTROL

Strict quality checks at every stage to ensure consistent excellence.

ON-TIME DELIVERY

Strong production planning and logistics to meet commitments.

EXPORT EXPERIENCE

Serving clients across multiple countries with reliability and trust.

SAFETY STANDARDS & CERTIFICATIONS

Built to comply with globally recognized workwear and flame-resistant safety standards.

EN ISO 20471:2013+A1:2016
High-visibility clothing for enhanced worker visibility.

EN ISO 11611
Protective clothing for workers exposed to welding, spatter and short-term flame contact.

EN ISO 11612
Protective clothing against heat and flame.

EN ISO 14116:2015
Limited flame spread materials to reduce the risk of garments burning during brief, occasional contact with small flames.

NFPA 2112
Flame-resistant clothing for protection of industrial personnel against short-duration thermal exposures from fire.

ATPV cal/cm²
Indicates the level of protection required. Higher rating (cal/cm²), greater the protection.

EN 17353:2020+A1:2025
Low-visibility clothing for enhanced worker visibility.

NFPA 70E
Electrical safety standard for protection against arc flash and electrical shock hazards.

ASTM F1959/F1959M
Standard test method for determining the arc rating (ATPV/EBT) of flame-resistant materials for clothing exposed to an electric arc.
